

Director of Academic Life

Our Purpose

We're up to big things at SLO Classical Academy! You'll find us off the beaten path, providing classical education and enrichment (with a twist). We exist to educate for life, understanding that education is not a means to an end, but a worthy end in and of itself.

Is SLOCA The Right Fit For You?

Here at SLOCA, we are a community that is committed to forging character, fostering wisdom, and nurturing a lifelong passion for learning. If you believe wholeheartedly in this mission and are able to fully enjoy and appreciate what makes us unique, we may just be the perfect match! Get to know us by checking out our website for more information.

This Is Where You'd Come In

The Director of Academic Life is responsible for ensuring the implementation of SLOCA's mission, vision, and values throughout varying aspects of the school. This includes curricula oversight and development of our classical model and our classical educators. As an active presence in all areas of the school, the Director of Academic Life serves as a public face and champion of SLOCA as needed, maintaining a visible presence and communicating with students, parents, teachers, fellow leadership, and classical educators beyond the school.

Required Skills and Experience

If you can accomplish the above, you've got what it takes. Realistically though, you need an advanced degree in a related field and 10+ years of experience in education, at least 4 of which are in educational leadership. We're looking for a people person who engages others and communicates both efficiently and respectfully. The ideal candidate is part prioritizing, problem-solving, excellence-achieving machine and part dare-taking, mistake-making, grace-giving, growth-minded human being. Passion for and a commitment to our mission are absolute musts!

To apply, please send a resume and cover letter to jobs@sloclassical.org. The cover letter should address why you're interested in working at SLOCA and how your skills and previous experiences relate to this specific position.
